List of Nevada Private Passenger Automobile Insurance Companies by Usage Status of Credit-Based Insurance Scoring

Updated in July 2021

Pursuant to NRS 686A.700, the Division of Insurance is posting the following list of insurance companies and their use of credit-based insurance scores in their insurance underwriting or insurance rating for Private Passenger Automobile insurance.

Definitions:

Underwriting is the process used by the insurance companies to evaluate a risk and to decide whether to accept or reject an insurance risk.

Rating is the process used by the insurance companies to determine how much insurance premium to charge for a risk accepted by the underwriting.

Tiering is a rating practice used to assign insureds to one of a number of categories (tiers) based on one or more attributes. The tier is then considered as a variable within the insurer's larger rating system.

Disclaimer: All content is provided for informational purposes to the public pursuant to NRS 686A.700, as amended by Assembly Bill 120 (2013). The Division of Insurance does not promote, endorse, or recommend any insurance company regardless of underwriting or rating systems.

Companies are organized by alphabetical order within each of four possible combinations of usage statuses. The order of presentation should not be construed to suggest any preference for any insurer on the list.

Companies That Do Not Use Credit-Based Insurance Scores in Either Rating or Underwriting	Usage Status of Credit-Based Insurance Scores in Private Passenger Automobile Insurance
